

Prevalence of Mental Health Conditions among Active Duty Service Members from 2005-2016: Denominator, Numerators, and Rates

NOTES:

- Data Source: Military Health System Data Repository (MDR)
- Date of Data Pull: October 2017
- Denominator is the average monthly population enrolled in TRICARE for a given year
- To be a case in the numerator for a given condition, we utilized the case definitions provided by the Armed Forces Health Surveillance Branch, found at: <https://health.mil/Military-Health-Topics/Health-Readiness/Armed-Forces-Health-Surveillance-Branch/Epidemiology-and-Analysis/Surveillance-Case-Definitions>

LIMITATIONS:

- These prevalence estimates only include patients that seek care for a given condition and are coded with a diagnosis for that condition; therefore, patients not seeking care or not coded with a given diagnosis are not counted as cases in these estimates
